

Maxipac[®]: lightweight, hygienic, foldable bulk containers for efficient storage, distribution and retail-ready point of sale display

Product protection: smooth surfaces protect contents and promote hygiene.

Versatile: easy & quick to assemble & fold. Drop doors allow easy access, even when stacked, preventing operators from having to lean into a part empty container. Wheeled version eases and speeds manual handling operations.

Durable: stacks two high carrying a unit load of up to 250Kg in temperatures from -20°C to +60°C. Maxipac[®] resistant to impact, weather and most chemicals

Economical: folds when empty, saving valuable space on return transport. Maxipac[®] typically lasts upwards of seven years in continuous use, paying for itself many times over.

Ecological: unlike disposable packaging, Maxipac[®] can be used again and again helping you comply with packaging waste legislation, reduce carbon footprint and save money. At the end of its working life Maxipac[®] can be recycled, making new from old.

Secure catches for drop-doors and sides

Ventilated sides & base for reduced weight and to maintain quality of fresh & frozen produce
